

Southern Oregon Digital Media Center Simulated Violence Policy & Form

SOU encourages the production of video scenarios and other simulated scenes on campus for class projects or creative intellectual expression. However, the university has established procedures for students and instructors to notify Campus Public Safety (CPS) and other authorities prior to these events, and to take appropriate measures to ensure safety and avoid confusion. SOU community members who wish to organize scenes of simulated violence should review the full policy at <http://www.sou.edu/policies/Simulated-Violence.pdf> and should submit this form to their instructor at least four days prior to the event.
